She disturbs the quiet order of his scholarly existence, vexes him in more ways than he can count, and encourages him to break enough of the kingdoms laws so that not even being the kings cousin will save his head. her on a quest to find the legendary Tears of Elios, he discovers magic far more powerful than he's ever imagined. But once he unlocks their secrets, will he be able to use their power for good? Or will he let them fall into the hands of a tyrant who's out to destroy all non-humans, including the shape-shifter who's captured his heart? "I was blown away by the creative world Crista has compiled in her novels. It takes some new ideas about magic and mixes in old folklore and other more traditional ideas... it's definitely one that the young adult crowd would also be able to dive into." --Katie at I Smell Sheep "The first thing that came to mind upon finishing this book is 'Holy Crap! Is that it?!' I did not want this book to end." --Jess at Starcrossed's Prsentation de l'diteur

Growing up in small town Alabama, Crista relied on story-telling as a natural way for her to pass the time and keep her two younger sisters entertained. She currently lives in the Audi-filled suburbs of Seattle with her husband and daughter, maintaining her alter ego of mild-mannered physician by day while she continues to pursue writing on nights and weekends. Her writing has won over twenty awards. Just for laughs, here are some of the jobs she's had in the past to pay the bills: barista, bartender, sommelier, stagehand, actress, morgue attendant, and autopsy assistant. And she's also a recovering LARPer. (She blames it on her crazy college days) For the latest updates and answers to any burning questions you have, please check out her webpage, www.cristamchugh.com, or subscribe to her newsletter.
